

FERANMI FAVOUR OYETUNDE

IT Systems Engineer | Microsoft 365 & Power Automate Specialist

Lagos, Nigeria | +234 903 616 1857 | feranmioyetunde@gmail.com | github.com/Feranmidevelops | linkedin.com/in/feranmi-oyetunde

PROFESSIONAL SUMMARY

IT Systems Engineer with hands-on experience administering Microsoft 365 environments for 60+ staff, driving digital transformation through SharePoint and Power Automate, and managing enterprise IT infrastructure — including networking, hardware provisioning, and cybersecurity awareness practices. Proven track record in Web Management and SME technical support, complemented by a distinct force-multiplier advantage: software development expertise (React, Python, Node.js) that enables the design of bespoke tools — from automated financial calculators to data pipelines processing 300,000+ records — solving business problems beyond the reach of standard M365 capabilities.

TECHNICAL SKILLS

- **Microsoft 365 & Collaboration:** SharePoint, Power Automate, Teams, OneDrive, Exchange, User Provisioning & Access Management
- **IT Infrastructure & Security:** Network Configuration & Connectivity, Hardware Procurement & Setup, Cybersecurity Awareness, Data Backups, First-Line Technical Support
- **Web Management:** WordPress, Website Administration, Digital Communication Platforms
- **Automation & Scripting:** Python, Selenium, Web Scraping, Nodemailer, Workflow Automation
- **Databases:** MongoDB, PostgreSQL, Appwrite
- **Software Development (bonus):** React.js, TypeScript, JavaScript (ES6+), Node.js, Express.js, REST APIs, Tailwind CSS, Git/GitHub

PROFESSIONAL EXPERIENCE

IT Systems Administrator & Software Engineer | TEHC (Total Energies Housing Cooperative) Oct 2025 – Present

- Administered Microsoft 365 environment for 60+ staff — managing Teams, OneDrive, SharePoint, and Exchange — including user access provisioning and permissions management.
- Automated inventory management using Power Automate, building a proactive workflow that auto-sends renewal alert emails and eliminated manual tracking.
- Designed SharePoint workflow automations for meeting/boardroom scheduling indicators, improving resource visibility across departments.
- Managed procurement of IT worktools (Smartboards, printers, laptops) and configured network infrastructure and connectivity for offices and conference rooms.
- Provided first-line technical support, resolving hardware, software, and network issues, and implemented cybersecurity awareness practices across the organization.
- Managed the corporate intranet system and prepared monthly IT reports on asset status, support activity, and system reliability for leadership review.
- Built internal web applications (React + Tailwind) from Figma designs and integrated REST APIs — extending IT capability with custom, business-specific tooling.

Web Systems Administrator & SME Support | ACUOP.com

Jan 2026 – Present

- Developed and maintained the proprietary ACUOP website (WordPress), owning Web Management and digital communication platforms for the business.
- Architected a multi-role admin portal with role-based access control, integrating with backend systems to streamline onboarding, verification, and approval workflows.
- Engineered automated financial calculators that replaced manual processes, reducing turnaround time on business calculations.
- Built real-time analytics dashboards for business transaction metrics, supporting data-driven decision-making for SME leadership.

Software Engineering Intern | Drevad Ltd. (UK) — Remote

Jan 2025 – Mar 2025

- Contributed to frontend/backend engineering tasks, QA testing, debugging, and feature delivery.

SELECTED PROJECTS

- **SharePoint Automation – Inventory Management System:** Power Automate workflow that proactively sends renewal alert emails, eliminating manual inventory tracking.
- **Role-Based Onboarding Workflow (TEHC/ACUOP):** Contributed to a secure, role-based onboarding system spanning applicant onboarding, relationship-manager review, and admin oversight, with encrypted data handling and an audit-friendly state.
- **Cooperative Finance Admin Platform:** Enterprise dashboards for analytics and approvals.
- **Audience Intelligence Scraper:** Automated Python pipeline processing 300,000+ profiles.
- **Audio Commerce Platform:** Full-stack e-commerce app with transactional email flow.
- **Movie Discovery Platform:** Search-driven recommendation and trending engine.
- **JWT Notes Application:** Secure CRUD app with authentication and protected routes.

EDUCATION

B.Sc. Educational Technology — University of Ilorin, Nigeria | 2024 | CGPA: 4.0 / 5.0

CERTIFICATIONS
